Bengaluru, India • 9663913658 • [preethipreethu211@gmail.com](mailto:preethipreethu211@gmail.com) • [LinkedIn](#)

Software Developer with 2+ years of hands-on experience in building scalable web applications using .NET, C#, and modern front-end frameworks. Proficient in Angular, Vue.js, HTML, CSS, and JavaScript. Strong knowledge of REST API development, cloud integrations using Google Cloud Storage, and version control with GitHub. Skilled in Agile methodologies and Test-Driven Development (TDD). Passionate about delivering high-quality, maintainable code and continuously learning emerging technologies to solve real-world problems.

## WORK EXPERIENCE

### Software Developer | DataZymes, Bengaluru

Feb 2023 – Present

#### 1. M4 Project – Angular

- Engaged in development on the M4 Angular project, leveraging **Node.js**, **Express**, and **Angular** to create **RESTful APIs** and dynamic front-end interfaces with libraries like **Highcharts** for data visualization.
- Integrated **Google Cloud Storage** for streamlined file management, ensuring secure storage and retrieval of uploaded content.
- Innovated with a chatbot feature utilizing the company's external bot API with **Jwt** authentication enhancing user interaction and operational efficiency within the application.

#### 2. Intellia – .NET & Vue.js

- Built RESTful APIs in C# (.NET) for competitive intelligence platform, fetching data from SSMS databases.
- Developed a user-friendly interface using **Vue.js**, **HTML**, **CSS**, and **Bootstrap** for managing alerts and role based workflows.
- Used Google Cloud Storage for secure and efficient file management.
- Employed **GitHub**, **AWS CodeCommit** and **Jira** for version control and project tracking in Agile sprints.

#### 3. Intellia Retooling – React

- Currently revamping the platform using **React (with Vite)**, **Tailwind CSS**, and **TypeScript** for a modern, responsive front-end.
- Developing scalable backend APIs with **Node.js** and **Express**, aiming for improved performance, modularity, and maintainability.
- Integrated **pptxgenjs** to enable **PowerPoint report generation**, allowing users to download alert summaries in .pptx format with dynamic content.

## EDUCATION

### **Bachelor of Engineering – Information Science and Engineering** (2019 – 2023)

Acharya Institute of Technology – 8.7 CGPA

## TECHNICAL SKILLS

**Technical Skills:** C# | JavaScript | TypeScript | SQL | Node.js | Express.js | .NET | HTML | CSS | AngularJS | React.js | Vue.js

**Libraries:** Angular Material | Bootstrap | Tailwind CSS | Highcharts | PrimeNG | Chart.js | PPTXGENJS

**Databases:** Microsoft SQL Server | POSTGRESQL

**Tools:** GIT | JIRA | Postman | VS Code

**Soft skills:** Communication | Teamwork | Adaptability | Problem-solving | Leadership | Time Management | Flexibility

## RECOGNITION AND AWARDS

- Hackathon Winner: Won 1st place for building an **AI-based Data Quality Platform**, showcasing innovation in data validation and anomaly detection.
- Innovation Award: Recognized for innovative feature development and enhancing user experience in the company's products.
- Excellence in Project Execution: Received client appreciation and internal recognition for excellence in project execution and teamwork.
